

IEWM Associate Framework

- Save time and procurement costs
- Access to professionals at very competitive rates (capped at £500 maximum per day)
- Quality assured and skilled experts

Our experienced Associates will provide you with the professional skills and expertise to enable you to meet the challenges facing the public sector at the moment.

To find out more, contact:

Tony Ashfield

Regional Programme Manager

Themes Identified

Following the completion of a fully OJEU compliant commissioning process, this offer provides access to a bank of quality assured Associates able to work with your organisation to implement bespoke improvement programmes across a range of themes, as identified through discussions with Chief Executives, Leaders and senior officers in the region.

The themes they identified and included for support via this framework are:

- Commissioning and New Models of Service Delivery
- Adult Social Care & Health
- Children's Services
- Social Media
- Procurement and Efficiency
- Sector-led Improvement and Performance Management
- Leadership, Transformation, Change Management and Shared Services

Outcomes

In addition to providing cost-effective solutions, outcomes achieved so far include:

- Increased capacity to meet a variety of challenges
- Speedy implementation of projects, e.g., often less than one month from ideas scoping to implementation on-site
- Improved learning as a result of sharing solutions across our networks

How It Works

Management of the IEFM Associate Framework will be via a web-portal at:

<http://associate.westmidlandsiep.gov.uk>

Once registered to access the site, participating authorities can log their project on the system using the templates provided.

They will then be offered a selection of quality assured Associates with the skills and experience requested.

The final choice of Associates is made by the participating authority and they will commission the Associate directly. There are no hidden costs or search fees.

For further details go to:

www.westmidlandsiep.gov.uk/AssociateFramework
